

Khushi Agrawal

Full Stack Developer (Python | MERN Stack)

khushi4608@gmail.com | +91-7394874292 | github.com/khu5shi | linkedin.com/in/khushi-agrawal | portfolio/khu5hi

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable, production-level web applications using Python and the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in designing and integrating REST APIs, optimizing databases, and deploying reliable, mobile-responsive systems. Strong foundation in data structures, OOP principles, debugging, and clean, maintainable coding practices, with a track record of learning quickly and taking ownership of features end to end.

EXPERIENCE

Frontend Developer Intern

Remote

CodexIntern

July 2025

- Refactored 15+ React components into reusable abstractions, reducing duplicated code by **30%**.
- Optimized React performance using memoization, reducing unnecessary re-renders by **35%**.
- Built resilient async workflows and integrated 10+ REST APIs with loading, retry, and error-handling logic.

PROJECTS

CareerOS – AI-Powered Job Application Tracker

[Live Demo](#)

Tech Stack: React 19, TypeScript, Redux Toolkit, Node.js, Express.js, MongoDB, REST APIs, OpenAI API

- Engineered a production-level, AI-powered job application tracker with authentication, resume management, reminders, and a Kanban workflow.
- Built a Chrome Extension to automatically import jobs from LinkedIn, Indeed, and Naukri, reducing manual data entry.
- Integrated GPT-4o-mini for ATS resume scoring, skill-gap analysis, interview preparation, and personalized cold-email generation.

Enterprise User Management Portal (EUMP)

[GitHub](#)

Tech Stack: Next.js 16, React 19, TypeScript, Node.js, Express.js, MongoDB, REST APIs, Socket.io, Tailwind CSS

- Built an enterprise-grade, production-ready user management and task portal with Admin/Employee RBAC, OTP verification, and JWT authentication using secure HttpOnly cookie sessions.
- Implemented defense-in-depth security: CSRF protection, XSS sanitization, NoSQL injection prevention, Zod validation, and audit logging for administrative actions.
- Designed real-time task synchronization with Socket.io and DPDP Act 2023-compliant data-erasure workflows with PII anonymization.

DevTales – Full-Stack Platform with AI Integration

[Live Demo](#) | [GitHub](#)

Tech Stack: MERN Stack, REST APIs, Tailwind CSS, ImageKit, Gemini API

- Architected a MERN-based, production-deployed blogging platform with authentication, role-based permissions, and a responsive UI.
- Embedded the Gemini API to provide AI-assisted content creation and editing features.
- Streamlined media handling using ImageKit and deployed the application with a modular backend architecture.

LocalSathi – Full-Stack Platform

[Live Demo](#) | [GitHub](#)

Tech Stack: MERN Stack, REST APIs, Tailwind CSS, OpenStreetMap, LibreTranslate API

- Built a production-level platform for discovering and booking nearby local service providers with a responsive interface.
- Leveraged OpenStreetMap and the LibreTranslate API to provide multilingual, location-based services.
- Implemented JWT authentication, booking workflows, and reusable UI components to improve user experience.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, C++

Backend & APIs: Node.js, Express.js, REST API Design & Integration, JWT Authentication

Frontend: React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS

Databases: MongoDB, SQL, Database Design & Optimization

Tools & Deployment: Git, GitHub, CI/CD, Vercel, Render, Railway, AWS S3

Core CS: Data Structures & Algorithms, OOP, Debugging, Testing, Production Deployment

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

2022 – 2026

KCC Institute of Technology and Management | CGPA: 7.89, Division I

Senior Secondary (XII, PCM) & Secondary (X)

2021 & 2019

Saroj Royal Academy (CBSE) | XII: 86% | X: 83%

ACHIEVEMENTS & CERTIFICATIONS

- Solved **500+ Data Structures & Algorithms problems** on [LeetCode](#) and [GeeksforGeeks](#); **5-Star rating on HackerRank** ([Profile](#)).
- Completed the GFG 160 Days Coding Challenge.
- Certifications:** [HCL Full Stack Web Development](#) | [HackerRank SQL Basics](#) | [GSSoC Open Source Contributor](#)
